

LED50

Camera gauge for compression springs

Test of length and diameters of the springs during the production

Sistema di controllo a telecamera per molle a compressione: misura e corregge la lunghezza ed il diametro della molla su macchina avvolgitrice

Sistema de control con videocámara para resortes de compresión: mide y corrige la longitud y el diámetro del resorte en la máquina enrolladora

LED50TORS

Camera gauge for torsion springs and wire forms

Test of dimensions with control plan

Telecamera per molle a torsione e parti piegate: misura e corregge le dimensioni della molla su spring former

Videocámara para resortes de torsión y partes dobladas: mide y corrige las dimensiones del resorte en spring former
